JAMES G. HOWARD, FROM WHOM WIFE WANTS DIVORCE, IS ARRESTED AGAIN

James G. Howard, whose wife, Ruth Albino Howard, recently filed suit for divorce from him, was arrested by police sergeant Williams Thursday night on a charge of carrying a pistol. He had a Colt's .45 caliber revolver fully loaded, the police say, the bullets being split at the ends so they would spread when they hit an object.

Howard came to El Paso from Mexico City, but when seen in the city jail this morning, he declined to say when he had come here or to discuss any of his troubles.

TITLED ENGLISHMAN AFTER A RANCH

Has Been Down in Mormon Colonies—Work on the Railroad Progresses.

Colonias Dublin, Jan. 28.—Sir William Wiseman and his companions left this week for the north. He had just come from the Nariz ranch. The American population around these parts are anxious that the Englishman should secure land here, and will lend him any aid they can within reason.

A little Mexican girl in the lower part of town is very sick and it is feared that she might have diphtheria.

Leland Jones was very sick the early part of the week, but he is better again. He had grip and sore throat.

One of the most pleasant parties of the season, in Colonia Diaz, was given by the parents' class in the Sunday school. The assembly was composed almost entirely of married people, only one unmarried person being present.

Joseph Mortensen, of Colonia Diaz, severely crushed his hand in some machinery. The wound is very painful.

John Ray, of Colonia Morales, has gone to work for Peter Mortensen, of Colonia Diaz. He will fill the place made vacant by Edmund A. Richardson, who has gone to Colonia Juarez to attend the academy.

Ed Jorgensen of Colonia Diaz, ran a mesquite thorn in his hand, and it is giving him a great deal of trouble.

Mr. and Mrs. Jesse Jacobsen have a baby girl and Mr. and Mrs. Byrl Hendrie have a baby boy at Colonia Diaz.

Mrs. Keeler, of Colonia Diaz, was out at the railroad camp visiting her son, Charles, this week. The camp has grown quite large. The people at the camp are looking forward to the starting of the Womer mill within the next few days.

Mrs. Carroll, of the camp, has been quite sick, but is better again.

The surroundings, altitude and pine laden atmosphere of the camp are very invigorating and healthful. Although working so hard, all are enjoying the best of health and putting on flesh.

OFFICER CHASES THIEVES WHO STOLE PREACHER'S PONIES

Ft. Sumner to Have an Addition to Townsite—See Factory and Light Plant to Be Erected.

Ft. Sumner, N. M., Jan. 28.—Deputy sheriff Wm. Hunter has returned from the chase after the thieves who took Rev. S. E. Turner's team of ponies while he was preaching at the townsite, that Texas officers are close behind the men. The ponies have been driven nearly 500 miles and are pretty badly worn out.

Eight acres adjoining the townsite, on the west, are about to be put on the market in lots.

Preparations are being made to annex a portion of the high ground north of the railroad.

There is some talk of foreign capital coming here to erect an ice and electric light plant.

M. A. Rooney and Neils Curtis have completed dwellings upon the government townsite. Local contractors are figuring upon some concrete block dwellings.

The Santa Fe has added a Pullman to the regular cut off train. Railroad men declare that the through Pacific fast mail service will be inaugurated within 60 days.

The Woodmen are actively engaged in their preparations for the construction of a lodge hall.

Weaver Brothers have organized a real estate firm and will open an office within a few days.

Are Microbes in Your Scalp?
It Has Been Proved That Microbes Cause Baldness

Professor Unna of Hamburg, Germany, and Dr. Sabouraud, the leading French dermatologist, discovered that a microbe causes baldness. Their theory has time and again been amply verified through research experiments carried on under the observation of eminent scientists.

This microbe lodges in the scalp, which is the natural hair oil, and when permitted to flourish it destroys the hair follicles and in time the scalp pores entirely close, and the scalp gradually takes on a shiny appearance. When this happens there is no hope of the growth of hair being revived.

Dandruff is a contagious disease, which is largely due to a destructive microbe, which when left to pursue its course causes itching scalp, falling hair and baldness. Dandruff is caused by the microbe affecting the glands which produce the sebaceous matter, which latter then unnaturally dries up and scales off.

We have a remedy which will, we honestly believe, remove dandruff, exterminate the microbe, promote good circulation in the scalp and around the hair roots, tighten and revitalize the hair roots and overcome baldness, so long as there is any life left in the hair roots.

We back up this statement with our own personal guarantee that this remedy called "REXALL" Hair Tonic will be supplied free of all cost to the user if it fails to do as we state.

It will frequently restore gray and faded hair to its original color, providing loss of color has been caused by disease; yet it is in no sense a dye. Rexall "33" Hair Tonic accomplishes these results by making every hair root, follicle and pigment gland strong and active, and by stimulating a natural flow of coloring pigment throughout the hair cells.

Rexall "33" Hair Tonic is entirely free from grease or sediment, is exceedingly pleasant to use and will not gum the hair or permanently soil the clothing or pillows.

We exact no obligations or promises—we simply ask you to give it a thorough trial and if not satisfied tell us and we will refund the money you paid us for it. Two sizes, prices 50 cents and \$1.00. Remember you can obtain it in El Paso only at our store—The Rexall Store—People's Drug Store, Kelly & Pollard, Props.

WOMAN SAVES LIVES OF HER CHILDREN

Sierra Blanca Mother Goes Into House and Puts Out Fire.

Sierra Blanca, Tex., Jan. 28.—Excitement was caused Thursday evening by an alarm of fire at the Parrott home. Mrs. Parrott had gone to a neighbor's for a few minutes, and in her absence one of the little children set fire to some quilts. What might have been a serious fire was averted by the presence of mind and prompt action of Mrs. Parrott, who ran in and threw the quilts outside. No one was injured.

Sierra Blanca has no adequate water supply and the people have no protection at all in case of fire.

The carpenters are kept quite busy as there is some building and repairing going on all the time here. There is also a demand for town lots. Sierra Blanca is growing slowly, but surely.

No vegetables are grown here at this season of the year and the people are therefore interested in the advertisements of the merchants in The Herald, as in this way they can order fresh vegetables as they come on the market.
